Product description

Pallet offer consisting of 8 pieces of used wide neck drums with a capacity of 210 liters. With this capacity, this barrel offers enough space for storing and transporting large quantities of liquids or solids. The barrel is made of sturdy steel, which ensures durability and robustness. This makes it suitable for both indoor and outdoor use and provides protection against possible damage during transport or storage. The barrel features a removable lid that is sealed with a steel clamping ring. This ensures a secure and airtight seal, keeping the contents protected from external influences such as dirt, moisture and air. Designed to store and transport both liquids and high viscosity solids. This makes it ideal for use in various industries, such as the paint industry, chemical industry and more.

Caution! These barrels were previously used for chocolate storage and may contain residue.
