Technical information

Productnumber : 53-TB-TD20-UN

Product description

Sturdy plastic jerry can with a capacity of 20 liters including cap and flexible pouring spout. The black jerry can is UN approved and suitable for the safe storage and transport of petrol, diesel and other fuels. Resistant to UV rays, all weather conditions and mechanical damage. The screw cap is attached to the neck of the jerry can with a plastic cord so that you do not just lose it. Easy to use due to the sturdy handle and flexible spout. To be closed with the screw cap. The sturdy construction ensures a long life. The jerry can has a large filling opening of 28 mm, making it large enough to fill with a fuel pistol at a gas station.

Specifications

Article arrangement: New

Version: suitable for fuel

Food-safe: no

Length (mm): 350

Height (mm): 390

Options: UN approved

EAN Code (Gtin) 8719424179125

Type: plastic canister UN-approved

Material: PE

Colour: black/red

Width (mm): 200

Volume (ltr): 20

Type number: 53-TB
