Product description

An insulating cover for a roll container with a minimum height of 1460 mm. These covers are made of high-quality silver-colored PES foil with bubble wrap of 3 mm thick. The protective cover is provided with reinforced textile on the outside and is therefore suitable for multiple industrial use. The insulating thermal cover has two zippers at the front, making it easy to access the contents without having to remove the insulating cover. The white roll container cover protects the products against water, dust and dirt during transport or storage.

Thermal conductivity: 0.0344 (W/mk),

Thermal resistance: 0.09 (R)

K value: 11.46 k (W/m2K).
