Product description

An indispensable tool for your visual management.

- Magnetic board Improvement with Dutch text and magnetic, dry-erase surface.
- With the board you can visualize problems and opportunities for improvement.
- Every identified problem is processed in a solution-oriented process.
- This board is therefore the ideal communication tool for visual management so that each employee can make his or her contribution to ultimately find a joint solution.
- Visual management is based on a series of visual, quantitative and qualitative indicators located at strategic places in the production area and are updated daily by the employees.

Specifications
