Product description

Batch offer consisting of 2 IBC liquid containers (without UN quality mark) of HDPE (High Density Polyethylene) 1000 liters with used wooden base and welded steel tube frame and a new tank. Solid stacking construction with excellent handling properties and high stability.

Reasons why you need a UN quality mark is because when you are going to transport hazardous substances you must comply with the ADR regulation. Also known as Accord européen relatif au transport des marchandises dangereuses par route.

Please note! In addition to the ADR regulation, you must also comply with other national and international legislation. The Living Environment and Transport Inspectorate has an up-to-date overview of these laws. adapter, please contact us or send a photo to one of our employees for the possibilities.
