Product description

PE drip tray with grid for four 25 liter drums.

Guideline for storage and temporary storage for drip trays with regard to fire safety, occupational safety and environmental safety according to PGS 15 (publication series hazardous substances):

A storage facility must be constructed in such a way that leaked or spilled hazardous liquid is collected in a container. To this end, the collection container must have a capacity of at least 110% of the largest package. However, if 10% of the total content of the packages is more than 110% of the content of the largest package, then the collection capacity must be equal to 10% of the total content of the packages together. The collection container must be sufficiently resistant to the stored liquids.

The collection capacity only applies to liquids. Empty, uncleaned packaging does not count. The collection facility may also be realized in storage. The choice of location for the collection facility may depend on the hazardous liquids stored. Kruizinga.nl is not liable for the type of use!

Please note! Any form of modification is not allowed. If this is the case, all regulations will lapse.

Specifications

Article arrangement: New
Version: for 4 x 25 l drums
Floor: oil- and water tight
Colour: yellow
Internal length (mm): 870
Internal width (mm): 670
Internal height (mm): 125
Volume (ltr): 100
Type number: 37-0032

Type: Retention Basin
Material: plastic
Subgroup: Plastic trays
Length (mm): 920
Width (mm): 720
Height (mm): 175
Loading capacity (kg): 200
Weight (kg) 15
EAN Code (Gtin) 8719424004687
