

Technical information

Productnumber : 87302-PAL

Product description

These TÜV certified stacking racks can be used as mobile storage racks. Available in various versions, but above all flexible in height. The loading floor is designed for all standard pallet sizes, voluminous or goods that are difficult to palletize.

You can determine the height of the stacking racks yourself by making a choice from the stanchion lengths below. To determine the useful height (read: height to be loaded), take the total stanchion length minus 170 mm (example: stanchion length 1680 mm - 170 mm = 1510 mm). Of course, deviations from the standard lengths are possible, please contact us for the possibilities.

An indispensable logistics solution for almost any warehouse or company logistics. Think of environments such as the metal industry, large construction, small construction, production companies and the automotive industry. Because the rack has space for 2 pallet places, it is very suitable for long material or large material.

Looking for a temporary solution? Also available in our rental offer!

Specifications

Article arrangement: New
Version: suitable for stanchions 60.3
Floor: open lattice frame
Surface treatment: galvanized
Internal length (mm): 1780
Internal width (mm): 930
Insertion height (mm): 100
Weight (kg) 40
Batch (items): 16

Type: batch offer
Material: steel
Colour: colorless
Length (mm): 2015
Width (mm): 1165
Height (mm): 300
Loading capacity (kg): 2000
Type number: 87302
EAN Code (Gtin) 8719424150025
