Technical information

Productnumber : H87303-1200

Product description

You can determine the height of the stacking racks yourself by choosing from the stanchion lengths below. To determine the useful height (read: height to be loaded), take the total stanchion length minus 290 mm (example: stanchion length 1680 mm - 290 mm = 1390 mm). Of course, deviations from the standard lengths are possible, please contact us for the possibilities.
