

Technical information

Productnumber : 72119210

Product description

The Atlantis is a multifunctional ladder. Use it as a sliding ladder up a façade or set it up in the A-position. The I-profile makes the ladder very light. The Atlantis is the ideal ladder for in and around the home or for the professional project.

The unique D-rung is secured sturdily due to its special shape. The broad surface also provides added comfort and the stabiliser (with the 3-part version) improves stability. The push-up hook with safety-catch prevents the ladder unexpectedly sliding. The self-locking spreader protection unexpected closure while working in the A-position (Reform position). The characteristic gray coating is attractive as well as dirt-resistant.

The Red Step® on your ladder/steps indicates the height at which you can safely work. In the blink of an eye, you can clearly see how high you can go.

Specifications

Article arrangement: New
Version: 2-part lid, 2x10 steps
Subgroup: Ladders
Width (mm): 1120
Depth (mm): 1630
Type number: 119210
Work height (mm): 5600

Type: Altrex combination ladder
Material: aluminium
Colour: alu silver
Height (mm): 2600
Weight (kg) 12
Height when folded (mm): 2600
EAN Code (Gtin) 8719424174373
