Technical information

Productnumber : 72123608

Product description

Perhaps the most famous ladder of the Netherlands. The Mounter is equally strong as stable. The light weight I-profile is specifically designed for intensive use. Moreover, this combination ladder is also multifunctional. Use it as a extension ladder along the wall or simply switch it to an A-position. Perfect for every job.

The unique D-shaped rung is firmly in place thanks to its special shape. Moreover, the deep standing surface gives you more standing comfort and the stabiliser beam also provides additional stability. The ladder is easy to extend in and out through the automatic locking swing hooks and the top rollers at the ends. The distinctive black coating is also another nice addition to dirt repellent.

The Red Step® on your ladder/steps indicates the height at which you can safely work. In the blink of an eye, you can clearly see how high you can go.

Specifications

Article arrangement: New

Version: 3-part lid, 3x8 steps

Subgroup: Ladders

Width (mm): 1080

Depth (mm): 1130

Options: Norm: EN 131

Height when folded (mm): 2300

Work height (mm): 6150

Type: Altrex combination ladder

Material: aluminium

Colour: black

Height (mm): 2270

Weight (kg) 18

Type number: 123608
