

Product description

Hand-steered trailer with folding wooden walls and single turntable steering with ball race. The trailer has a folding drawbar that activates the brake in a vertical position. The headboard is fixed and the other three walls are foldable 250 - 325 mm high. The cart rolls on solid rubber wheels and has a load capacity of 1250 kg. The steel frame is treated with a robust and scratch-free powder coating. The loading surface is made of waterproof plywood and has a height of 490 mm. In accordance with EN 1757-3. This industrial trailer can optionally be equipped with a towing eye, see below.

Specifications
