Product description

Table trolley with two steel tier containers. The top tier has a raised edge of 150 mm and the lower one has a raised edge of 40 mm. Both deck trays are oil-tight. The shelved trolley has been treated with a powder coating that makes it robust and scratch-free. The load capacity per floor is 200 kg with a total load capacity of 400 kg. Thanks to two braked swivel castors and two fixed castors, the container trolley is very handy.
